INSURRECTION IS SPREADING

1000 Turkish Troops are Bombardin Krushey and Threaten a Massacre Causes Grave Concern to Diplomats. Salonica, Aug. 14.—It is reported that the Bulgarian insurgents have massa cred the inhabitants of the large Turkish village of Konati, near Monastir

The civil and military authorities at Salonica wired to Constantinople, stat-ing that a general insurrection was expected for today and disclaiming all onsibility unless they were reinforced. Constantinople replied, orderollment immediately of 2000 exclusively Mussulman gendarmes for service in Salonica. DISAPPOINTED WITH AMERICA

Macedonians Convinced Our Newspapers Were Bought by Turkey. Sofia, Bulgaria, Aug. 14.—The Macedonian leaders express themselves as greatly disappointed with what they assert is the distinctly hostile attitude of America toward their cause as manifested in the utterances of the press. Dr. Christo Tartercheff, one of the preslents of the Central Internal Macedonian committee, told a press represen tative that his party was convinced that American newspapers had been

WARSHIP SERIOUSLY DAMAGED

The Massachusette Anchored in Shallow Water, and May Sink. Bar Harbor, Me. Aug. 14.—The Incaused by striking on Egg Rock shoal, are more serious than the first exam ination indicated. Not only are the forward compartments full of water, but the ship is leaking farther aft, and divers have been at work trying to locate the defective part. The collies Lebanon and a government tug have been alongside nearly all day, and have taken on board all the ammunition, anchors and heavy stores in order to lighten the ship forward. She now floats in a natural position, but is drawing about 10 inches more water than usual. Considering the great weight that was taken from her by the collier and tug, it is very eviden that an enormous quantity of water must be inside in order to put a ship

of her size down 10 inches. The Massachusetts anchored near Baid Porcupine. It is said that the object in changing was to get into more shallow water, where, in case the water-tight bulkheads give way or the leak becomes more serious, the ship would not sink in deep water.
